Any shed can be made to any size or with alterations

Planning Information

To erect a garden shed or summerhouse in your garden, building regulations will not normally apply.

1. The total area of garden covered must not be more than 50%.
2. The building must not be situated further than the front of your house.
3. Overall height from ground level to ridge must not exceed more than 2.5m within a 2m range of any boundary. A building with overall height exceeding 2.5m in height and placed within 2m of any boundary will require planning permission.
4. No verandas higher than 30cm from ground level.
5. Buildings within the grounds of a listed property will require planning permission.

For full details please contact your local planning department.

8"x1" plus 'L' Brackets fitted

ALL GARDEN BUILDINGS CAN BE MADE INTO SMALLER SECTIONS PRICES ON APPLICATION.

PLEASE NOTE:

It is the customer's responsibility to make sure there is adequate access to the garden and shed base without any height or width restrictions. As some sections may come in sizes over 8'6" in height and width, please inform us upon ordering if there are any permanent archways or other fixtures which may restrict access.

N.B. If delivered only, we have one person delivering to your nearest access. As most panels are large and heavy, it is the customer's responsibility to notify us of any delivery problems.

Most of our buildings do not require planning permission. If planning permission is required, it is the customer's responsibility. You can find this out from your Local Authority.

The contents of an existing shed must be removed and replaced by the customer.

All prices are correct at time of going to press - but are subject to change without prior notice. Manufacturers reserve the right to change specification without notice.
